

PTFE & Polymer Solutions

Sealing & Component Offerings Made with TEFLON™ Fluoroplastics

OFFERING QUALITY SOLUTIONS WITH TEFLON™ FLUOROPLASTICS

Technetics PTFE & Polymer Solutions is a proud, authorized supplier of standard and custom polymer products made with quality TEFLON™ fluoroplastic resins. Using TEFLON™ fluoroplastic resins allows us to provide proven sealing and component solutions that ensure the highest levels of performance and reliability.

Solutions available using TEFLON™ resin include:

- Molded Rods & Cylinders
- Molded & Skived Sheets
- Seals & Gaskets
- Machined Components
- PTFE Tapes & Films

TEFLON™ FLUOROPLASTIC PROPERTIES

Our sealing and component solutions made with TEFLON™ fluoroplastic resins offers excellent insulating properties, resistance to moisture and can withstand both hot and cold temperatures, making it ideal as a

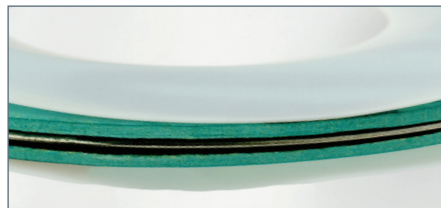

gasketing material, tank lining, housings, manifolds and other products that require FDA compliance.

PROVIDING VALUE THROUGH VERTICAL INTEGRATION

Our vertically integrated processes allow us to produce PTFE and polymer solutions to your exact specifications using TEFLON™ resins or other specified raw material that are of the highest quality and able to meet your most stringent requirements while reducing cost of ownership. With decades of experience, we have proven ourselves as valued partners and we understand the importance of meeting the strictest of industry standards and delivering defect-free components on schedule.

ISO 9001:2008 CERTIFIED

Technetics PTFE & Polymer Solutions is ISO 9001:2008 certified and can provide material testing, statistical process control or other quality assurances if needed. We are dedicated to ensuring your critical component is right the first time.

Teflon™ is a trademark of The Chemours Company FC, LLC used under license by Technetics Group, LLC.
